FORTIS

CASE

Elegance and power go hand in hand in this FORTIS ATX case. It highlights for its good design, its original dual color chassis, in black and white, and its elegant front panel, completely covered by metal mesh.

Its interior is also notable, having great capacity: high-end graphic cards, up to 380mm, place for CPU coolers up to 160mm... And it also includes a complete cable guiding system and an upgraded 90 degrees rotated HD cage, for an easier and faster installation.

FORTIS' cooling system is really powerfull, including a watercooling support, removable and washable dust filter, a complete air guiding system and the chance of installing up to 4 fans.

*Includes an adaptable tray for any of them
