OMNIA

CASE

OMNIA is at the same time an elegant and futurist case. Its spacious and lightweight chasis has been manufactured with high quality materials.

OMNIA has a thermally advantaged design, joining a 9 cm Aura Pro fan, CPU air duct and PCI express ventilation holes. In this way, this case gets optimal cooling but with the minimum noise.

The chance of installing high-end graphic cards, up to 350 mm, completes the qualities of this high-equipped case.
